

\$50,000 Owners' Contest to Follow Maxwell's Economy Triumph of May 23rd

Hundreds of Maxwells on May 23rd made good our claim that a Maxwell will go further on a gallon of gasoline than any other 5-passenger car—now, from June 16th to 30th, we expect 40,000 Maxwells to make as good or a better showing than was made on historic May 23rd

May 23d was Maxwell Gasoline Economy Contest Day all over the United States and Canada.

Fifty Maxwell cars went a total of 1,983.6 miles on a total of 50 gallons of gasoline.

The average gallon mileage of those cars was 39.67. And these were privately owned Maxwells—in actual daily use.

Those 892 cars averaged 27.47 miles per gallon of gasoline. More wonderful records are being received daily.

We could rest our laurels on this great triumph—but we don't intend to do that.

With the Messines, Wytschaete ridge, in their possession, the British on Friday organized the new ground and prepared for probable further action, while throwing back German counter attacks. Surprised by the terrific onslaught of Sir Douglas Haig's men Thursday, the Germans, who lost more than 6,400 prisoners and many more killed or wounded as a result of the mine explosions and the British artillery fire, made no immediate counter attack. Waiting until Friday, Crown Prince Rupprecht then threw his men forward against the new British positions north-west of Oostverne and east of Messines. Every effort was repulsed by the British infantry or artillery fire. The success of the British attack is admitted by the Berlin War Office, which says that the troops of the Bavarian Crown Prince were withdrawn to prepared positions to the rear of the original line.

5,000,000 Corns Lifted Right Off!

Try 2 Drops of Magic "Gets-It"

There's a wonderful difference between getting rid of a corn and the way they used to try to get rid of it only four or five years ago. "Gets-It" has revolutionized corn history. It's the only corn remedy

today that acts on the new principle, not only of shriveling up the corn, but of loosening the corn off—so loose that you can lift it right off with your fingers. Put 2 drops of "Gets-It" on that corn or callus tonight. That's all. The corn is doomed sure as sunrise. No pain, or trouble, or soreness. You do away once and for all with toe-bundling bandages, toe-eating salves and irresponsible what-nots. Try it—get surprised and lose a corn. "Gets-It" is sold everywhere.
